## IF YOU PUT YOUR HEART AND SOUL INTO A TASK, YOU WON'T WANT TO DO THINGS BY HALVES.

Thanks to its philosophy, ADLER has become the leader in competence when it comes to surface treatment and finishing. And particularly so when the material concerned is wood. From wood stains to PUR-based and water-based varnishes, paints, oils and waxes, and right up to professional preservation and care.

# THE DEMANDS OF THE FUTURE

With ecological products you work  
sustainably, responsibly and successfully

- **Because you are already equipped today for the constantly growing legal requirements.**
- **Because more and more customers are demanding environmentally sustainable products.**
- **Because you guarantee healthy, clean and safe production processes in your company.**
- **Because you actively take responsibility for environmental and climate protection and thus for a future worth living.**

**Under the green sustainability label, you will find the most sustainable coatings in ADLER's product range. In doing so, ADLER relies on the UN's Sustainable Development Goals, which ADLER has defined as the basis for its responsible actions. All products are objectively tested and certified according to three categories: Environment, Health & Safety and Service life. Only products that score positively in all these areas are awarded the green sustainability label.**

good colour stability

# WATER-BASED COATINGS

A woman with her hair in a bun, wearing a white short-sleeved shirt and blue jeans, is standing in a library. She is reaching up to a high white shelf to handle a book. The shelves are filled with many books, and the scene is brightly lit, suggesting a clean and well-maintained environment.

Nature is a precious resource that we must protect in the best possible manner. It is for this reason that no efforts have been spared in recent years at ADLER in order to develop water-based paints that meet the high standards of quality in commercial and industrial applications despite the low solvent content.

It is taken for granted by ADLER today that all types of paints have excellent resistance to creams and grease. However, in doing so, it should not be overlooked that the modern water-based coating systems are superior to the solvent-based ones in several aspects, e.g. filling power, recycling capability and elasticity. Nonetheless, the most important is that ADLER water-based paints protect your furniture in an eco-friendly manner, and yet, reliably.

## BLUEFIN TERRA-DIAMOND

The new water-based 2C primer and topcoat Bluefin Terra-Diamond is made from more than 85 % natural raw materials. The excellent surface protection it provides, its ease of use and absolute fitness for purpose clearly demonstrate that Bluefin Terra-Diamond is in no way inferior to conventional varnishes.

- + 85 % natural or renewable raw materials
- + low VOC content (less than 6 %)
- + 31 % fewer CO<sub>2</sub> emissions
- + free from plasticisers and formaldehyde
- + no heavy metals and therefore suitable for use on toys
- + very good chemical resistance
- + extremely scratch resistant
- + can be applied directly onto oak surfaces
- + declared in baubook

**Product no.** 2962000105  
**Container** 4 kg, 20 kg  
**Degree of gloss** G05, G10, G30, G50, G70  
**Hardener** Aqua-Hardener 8451

Despite the high percentage of renewable raw materials it contains, the varnish achieves excellent chemical resistance (ÖNORM A1605-12 1-B1 and DIN 68861 1B) and is therefore ideally suited for varnishing surfaces that are subject to normal to heavy wear in furniture and interior finishing.

# WATER-BASED COATINGS

## BLUEFIN RESIST

Water-thinnable one-component varnish with excellent chemical and mechanical resistance. This varnish is resistant to cream and grease and has excellent grain accentuation, transparency and filling power. With the help of a special UV filter, it protects the surface against premature yellowing or fading.

- + excellent chemical and mechanical resistance
- + outstanding build
- + excellent grain accentuation
- + excellent resistance to cream and grease
- + excellent stability on vertical surfaces

**Bluefin Resist is the only 1-component clear coat that achieves the resistance class 1-B1 in accordance with ÖNORM A 1605-12. Moreover, it is also suitable for use with the “coat-on-coat” method of working.**

**Product no.** 2963000105  
**Container** 5 kg, 25 kg  
**Degree of gloss** G05, G10, G30, G50, G70, G90

## BLUEFIN SMART

The innovative furniture varnish Bluefin Smart paves the way for a completely new surface treatment – the surface is finished with just one spray application and subsequent smoothing. This “smart” companion saves the processor time and money. In addition to its efficient application, this clear coat with its dull matt appearance and velvety feel conjures up natural-looking furniture in no time at all.

- + save time and money: 1 application is all you need
- + natural-looking surface
- + dull matt look with velvety feel
- + no shine
- + low-emission: VOC content below 3 %
- + very good mechanical resistance
- + offers optimum protection against scratches
- + suitable for living room and bedroom furniture as well as interior fittings

**Efficient processing with just one application.**

**Product no.** 2990000105  
**Container** 4 kg, 20 kg  
**Hardener** Aqua-Hardener 8451

© DEFRANCESCO ARREDAMENTI

© SCHÖSSWENDER MÖBEL

## BLUEFIN PURE-WOOD

Water-based 2C furniture varnish, ideal for achieving an untreated look and feel on wooden surfaces. Renewable raw materials preserve the natural beauty of the wood and ensure an ecologically-sound living environment.

- + efficient and straightforward to apply, especially on porous hardwoods (e.g. oak, nut)
- + only a small quantity required per application
- + fast drying
- + reliable protection against marks and scratches
- + suitable for industrial use

**Natural, matt surface with reliable protection against marks and scratches: This is the recipe for success of Bluefin Pure-Wood.**

**Product no.** 2980000105  
**Container** 4 kg, 10 kg, 22 kg  
**Hardener** Aqua-Hardener 8450

## BLUEFIN UNISTAR BLUEFIN UNISTAR THIX

Bluefin Unistar and Bluefin Unistar Thix can be used either as single-component products or as two-component products using the "varnish on varnish" method, and can be applied directly onto many types of wood, e.g. oak. Further plus points are their very short drying time and fast block resistance, and their excellent filling performance, transparency and resistance. Thanks to the VOC-free formulation, they are particularly environmentally friendly.

- + universal application: 1C or 2C
- + fast drying and stackable after only a short time
- + outstanding filling performance and transparency
- + very good grain accentuation
- + effectively protect the wood against scratches and marks
- + suitable for varnishing toys (EN 71-3)
- + have been awarded the Austrian Ecolabel and declared in baubook

**The water-based all-rounder for all interior areas.**

**Product no.** 2965000105 | 2966000105  
**Container** 4 kg, 22 kg, 120 kg  
**Degree of gloss** G05, G10, G30, G50, G70  
**Hardener** Aqua-Crosslinker 8481

# WATER-BASED COATINGS

## BLUEFIN STEP-SILENT

Bluefin Step-Silent reduces squeaking noises on wooden staircases, is slip resistant and can be processed in a choice of 1 or 2-component. Due to the improved wearing through and abrasion resistance, Bluefin Step-Silent stands up to high mechanical loads even when used as 1-component.

- + no squeaking noises
- + excellent abrasion resistance
- + very good firmness on vertical surfaces
- + outstanding chemical resistance
- + resistant to cream and grease
- + can be processed as 1 and 2-component
- + slip resistant
- + anti-slip class R9 according to DIN 16165

**Designed for painting staircases in the commercial and industrial sectors.**

**Product no.** 2967000110  
**Container** 4 kg, 22 kg  
**Degree of gloss** G10, G30, G50  
**Hardener** Aqua-Hardener 8450

## BLUEFIN TOP-ANTISCRATCH

Water-thinnable and highly resistant 2-component clear topcoat for furniture surfaces, where the maximum chemical resistance and excellent scratch resistance are called for.

- + maximum chemical resistance
- + can be used as the topcoat with pigment coat surfaces as well as colourless coating
- + excellent mechanical resistance
- + yields surfaces that are highly resistant to abrasion by metallic surfaces
- + non-yellowing

**Bluefin Top-Antiscratch protects furniture in the best possible way from signs of daily use.**

**Product no.** 2960000105  
**Container** 4 kg, 20 kg  
**Degree of gloss** G05, G10, G30, G50  
**Hardener** Aqua-Hardener 8451

© RADON PHOTOGRAPHY

## BLUEFIN SOFTMATT

Bluefin Softmatt can be used universally as a primer or top coat when a particularly natural, deep matt feel-good finish is required. Regardless of the viewing angle, the surface always looks uniform with a consistently deep matt gloss level – and thanks to anti-fingerprint properties without annoying marks.

- + can be used as a top coat, but also paint-on-paint
- + excellent all-round properties – for colourless natural structures or as a top coat for pigmented areas
- + deep matt, warm feel-good finish with fine, silky feel
- + very uniform matting level
- + very natural pore pattern, thus giving a particularly natural appearance
- + anti-fingerprint properties

**Particularly suitable for home furniture and in interior finishing.**

**Product no.** 3052000105  
**Container** 4 kg, 20 kg  
**Hardener** Aqua-Hardener 8451

## BLUEFIN ROCKETFILL

Single-component spray filler for surfaces on furniture and interior fittings that have been painted with water-based pigment paint.

- + very good filling performance and easy to sand
- + hardens quickly
- + can be used directly on MDF boards, very little roughening of fibres

**For an especially sustainable coat of primer with optimal filling performance.**

**Product no.** 3138050000  
**Container** 25 kg  
*further sizes available on request*

# WATER-BASED COATINGS

## BLUEFIN ISOSPEED

Water-based opaque spray filler with quick drying, high body level and good sanding properties. Bluefin Isospeed is available in the entire RAL colour range with immediate effect and can be processed as either a 1 or 2-component application. In the case of 2-component application, very good insulation properties against water-soluble staining substances in the wood and can be used directly on MDF boards.

- + very good stability
- + excellent sanding properties  
(even when sanding with a machine)
- + quick drying
- + 1 and 2-component processing
- + can be tinted in all RAL colours

**Due to its very good stability, Bluefin Isospeed is also suitable for painting suspended and vertical furniture and interior fixtures.**

<b>Product no.</b>	3134000010
<b>Container</b>	4 kg, 22 kg
<b>Colour</b>	W10 White, tintable 3134 000010
	Base W30 3134 000030
	Black 3134 500001
	<i>other RAL shades can be supplied</i>

**Hardener** Aqua-Hardener 8450

## BLUEFIN PIGMORES 4IN1

The water-based complete solution is insulation, filler, colour lacquer and top coat all in one. Bluefin Pigmares 4in1 enables uncomplicated and straightforward handling and at the same time ensures good filling power and grindability.

- + water-based 2-component pigment paint
- + very good filling power and optimal grindability
- + high chemical and mechanical resistance
- + very good ring test resistance
- + can be applied directly on MDF boards
- + resistant to cream and grease (CFB)
- + free of organotin and with low VOC emissions
- + large palette of nuances
- + also available as texture paint

**The water-based complete solution that puts efficiency first.**

<b>Product no.</b>	3501000010
<b>Container</b>	4 kg, 22 kg
<b>Degree of gloss</b>	G10, G30, G50
<b>Hardener</b>	Aqua-Hardener 8452

## BLUEFIN PIGMOCRYL NG

Water-based 1-component pigment paint with quick drying and good mechanical and chemical resistance. The new generation of the coloured paint can be tinted in all NCS and RAL colours and has very good coverage.

- + quick drying
- + high anti-blocking properties
- + very good coverage
- + high variety of colours
- + high resistance to mechanical and chemical loads as well as exposure to light
- + single component processing

**For use on open and closed-pored painted pigment paint surfaces on furniture and interior fixtures.**

<b>Product no.</b>	3201000010
<b>Container</b>	1 kg, 4 kg, 22 kg
<b>Standard colours</b>	all Ral, NCS and sanitary colour shades etc. mixable
<b>Degree of gloss</b>	G10, G30, G50

## BLUEFIN PIGMOSOFT

Compared to other matt paints, Bluefin Pigmosoft is characterised by an innovative self-regeneration which protects the surface from shine and regenerates automatically in case of heavy use. Fingerprints are almost completely avoided thanks to special anti-fingerprint protection.

- + innovative self-regeneration
- + very good scratch and ring indentation resistance
- + excellent gloss properties
- + anti-fingerprint protection
- + dull matt look with velvety feel
- + high opacity and light resistance
- + available in all RAL and NCS colour shades

**Self-regenerating 2-component pigment paint with a velvety soft feel and dull matt appearance.**

<b>Product no.</b>	3295000010
<b>Container</b>	4 kg, 20 kg
<b>Hardener</b>	Aqua-Hardener 8451

# POLYURETHANE COATINGS

A woman with long brown hair, wearing a light grey sweater and blue jeans, is sitting on a white modern chair. She is leaning her head on her hand and looking thoughtfully to the side. The background features a yellow wall with a white geometric pattern and a white vase with a branch on a yellow surface.

A beautiful and high-class piece of furniture makes you happy – it creates a comfortable feeling of well-being. We need to protect the wood surface from day-to-day strains and stresses so that this happiness can be enjoyed as long as possible: Wood coatings meet the requirement of providing the feature of protection.

ADLER offers the best choice of PUR-based coatings for the most diverse types of wood as well as the most varied design concepts. Premium quality and efficient use are always ensured in the process. In this manner, you can meet almost any need or requirement for the surface as desired by your customers.

## ADURO LEGNOPUR

The high-class two-component PUR-based furniture varnish is suitable thanks to the non-fading raw materials and even for applying the topcoat to white and colourfully painted surfaces with pigmented paints.

- + outstanding build
- + non-fading and non-yellowing
- + highly non-combustible according to  
ÖNORM A3800-1 and EN 13501-1
- + excellent stability on vertical surfaces
- + not harmful for painting toys

**Legnopur meets all demands that are made of a modern coating system and is impressive primarily on account of its all-round properties.**

<b>Product no.</b>	2513000110
<b>Container</b>	4 kg, 20 kg, 180 kg
<b>Degree of gloss</b>	G10, G30, G50, G70, G90
<b>Hardener</b>	PUR-Hardener 8419

## ADURO VENTO

Our product innovation Aduro Vento convinces with excellent quality, user-friendly processing and versatile application possibilities. Especially at low degrees of gloss, Aduro Vento proves its reliability by producing uniform matt surfaces without cloud formation. Optimal light protection and excellent mechanical and chemical resistance demonstrate the high quality of this varnish.

- + cloudless matting effect, uniform appearance even for large matt surfaces
- + can also be used as a spray-on paint for pigmented surfaces
- + quick-drying
- + optimal light protection thanks to modern UV filters
- + good grain accentuation with beautiful pore pattern
- + very good mechanical & chemical resistance

**Versatile clear varnish for optimum results.**

<b>Product no.</b>	2660000110
<b>Container</b>	4 kg, 20 kg
<b>Degree of gloss</b>	G10, G30, G50
<b>Hardener</b>	PUR-Hardener 8419

# POLYURETHANE COATINGS

## TIROPUR NG

This varnish that has been best proven for decades with carpenters and cabinet makers has undergone continuous improvements and advanced development over the years. Tiropur NG has a fast drying feature and offers all other application-specific benefits that make it so popular with our customers.

- + quick drying
- + 2-component PUR-based clear coat for open-porous coating
- + excellent grain accentuation
- + good protection against light
- + outstanding mechanical and chemical resistance

**Tiropur NG is impressive with its aesthetically highly appealing surfaces on hardwood and softwood and with its great safety of use.**

Product no.	25461
Container	4 kg, 10 kg, 20 kg, 180 kg
Degree of gloss	G10, G30, G50, G70
Hardener	PUR-Hardener 8419

## ADURO SELECT

Aduro Select is a 1-component solvent-based clear coat that stands out due to its easy handling and versatile application possibilities. The lacquer offers very high resistance to mechanical and chemical effects, convincing efficiency and can be used universally on furniture surfaces. Optionally, Aduro Select can also be used as a two-component varnish for heavily stressed surfaces.

- + high filling power and good accentuation
- + very good mechanical and chemical resistance: 1-B ÖNORM A 1605-12.1 and 1B DIN 68861-1 (1-component processing) as well as 1-B1 ÖNORM A 1605-12.1 (2-component processing)
- + Light stabilisers protect the wood from rapid yellowing
- + mild odour and free of aromatic compounds
- + perspiration- and saliva-resistant
- + suitable for toys (ÖNORM EN 71-3)

**The easy handling of a 1-component combination with optimum resistance make Aduro Select an uncomplicated all-rounder.**

Product no.	2679000110
Container	4 kg, 20 kg
Degree of gloss	G10, G30, G50, G70
Hardener	PUR-Hardener 8429

## ADURO VITEA

The innovative 2-component PUR paint Aduro Vitea protects and maintains the authentic character of wood. With its 1-B1 resistance (ÖNORM A1605-12.1) it offers the same level of protection as conventional polyurethane paints, but the surface appears untreated due to the neutral grain accentuation and natural feel.

- + natural raw wood appearance
- + neutral grain accentuation with natural feel
- + beautiful pore pattern
- + very good light protection
- + quick drying and good grindability
- + very good chemical and mechanical resistance
- + is suitable for heavily stressed surfaces in furniture and interior fittings, the kitchen and sanitary field as well as hotel and school facilities

**Natural look with reliable protection.**

<b>Product no.</b>	2651000105
<b>Container</b>	4 kg, 20 kg
<b>Hardener</b>	PUR-Hardener 8439

## PUR-ANTISCRATCH HQ

Even steel wool cannot harm the extremely resistant varnish based on new, innovative raw materials. Thanks to its excellent chemical and mechanical resistance, it provides ideal protection for highly stressed surfaces.

- + top-class full-bodied two-component PUR-based varnish based on new, innovative raw materials
- + extreme surface hardness and scratch-resistant
- + for highly stressed surfaces on furniture and interior decoration
- + may be used as topcoat or using the coat-on-coat method
- + non-fading and non-yellowing
- + highly non-combustible and flame-retardant

**Does your tabletop need to withstand exposure to stress? Rely on the invisible protective screen of PUR-Antiscratch HQ.**

<b>Product no.</b>	26320
<b>Container</b>	4 kg, 20 kg
<b>Degree of gloss</b>	G05, G10, G30, G50, G70

# POLYURETHANE COATINGS

## ADURO ISOFIN

Aduro Isofin – the new brightening varnish from ADLER for popular surfaces with an unspoilt, dull matt look – maintains the natural colour of the wood and is very easy to apply. With its brightening effect, the 2C polyurethane clear varnish is particularly suitable for light species of wood as well as for old wood and maintains the appearance of sanded, untreated wood. Good mechanical and chemical resistance round off Aduro Isofin as a new top product.

- + brightening effect
- + natural, dull matt look & feel
- + beautiful pore pattern
- + quick-drying
- + good chemical & mechanical resistance
- + for old wood and light species of wood such as maple, oak or spruce

**The pure wood look for light woods.**

<b>Product no.</b>	2652000105
<b>Container</b>	4 kg, 20 kg
<b>Degree of gloss</b>	G05, G10, G30
<b>Hardener</b>	PUR-Hardener 8439

## PIGMOTOP

This fast-drying polyurethane-based clear topcoat is particularly suitable for pigment-coated surfaces of furniture and interior decoration that withstand the "ring test".

- + excellent mechanical and chemical resistance
- + outstanding resistance to yellowing
- + withstands the ring test

**Pigmotop, the first choice for pigment-coated surfaces resistant to abrasion by metallic objects.**

<b>Product no.</b>	25361
<b>Container</b>	4 kg, 20 kg
<b>Degree of gloss</b>	G10, G30, G50, G70, G100
<b>Hardener</b>	PUR-Hardener 8419

© FORCHER TIROL

## ADURO HIGH-GLOSS

This colourless 2C high-gloss varnish combines optimum surface hardness with good polishing ability and also impresses with its crystal clear gloss and excellent yellowing resistance.

- + especially user-friendly and easy to use
- + excellent buffing and polishing ability
- + good filling power
- + quick drying
- + very good mechanical and chemical resistance
- + non-yellowing
- + brilliant shine

**Brilliant shine without yellowing on your high-gloss structures.**

**Product no.** 2634000100  
**Container** 3 kg, 18 kg  
**Hardener** PUR-Hardener 8419

## ADURO PRIMER

This fast-drying 2-component PUR-based clear primer coat is particularly suitable as a primer coat among water-thinnable coats. Aduro Primer roughens up the wood surfaces less than water thinnable primer coats, which is why the effort for inter-mediate sanding gets reduced.

- + excellent grain accentuation
- + good sanding
- + good build
- + no issues with discolouration caused by wood extractives soluble in water

**Aduro Primer is particularly suitable as the primer coat among water-thinnable coats.**

**Product no.** 2523000210  
**Container** 4 kg, 20 kg  
**Hardener** PUR-Hardener 8419

# POLYURETHANE COATINGS

## PUR-STRONG

Thanks to its high mechanical and chemical resistance, PUR-Strong is ideal for heavily stressed surfaces. The 2-component polyurethane clear coat boasts strong grain accentuation and outstanding filling power.

- + very good mechanical and chemical resistance
- + especially for highly stressed interior surfaces
- + high filling power
- + good grain accentuation
- + outstanding yellowing resistance

**High protection and resistance for heavily stressed surfaces indoors.**

<b>Product no.</b>	26301
<b>Container</b>	4 kg, 20 kg
<b>Degree of gloss</b>	G10, G30, G50, G70
<b>Hardener</b>	PUR-Hardener 8429
<b>Dilution</b>	DD-Verdünner 8519 PUR-Verdünner 8529

## PUR-FÜLLGRUND HT

The highly transparent primer is also characterised by its high body level, good drying properties and excellent permanent flexibility. PUR-Füllgrund HT is particularly suitable for achieving high quality high gloss coatings.

- + excellent transparency, brilliant depth
- + very good filling power
- + good grain accentuation
- + excellent pore flow and spread
- + good light screen

**For extremely transparent and particularly full-bodied structures in the furniture and interior finishing sector. Particularly suitable for applying several coats.**

<b>Product no.</b>	2530000200
<b>Container</b>	5 kg
<b>Hardener</b>	PUR-Hardener 8433

## PUR-ECOFILL WEISS

This opaque 2-component sealing filler without aromatic compounds impresses with its quick drying, high body level and very good sanding properties. PUR-Ecofill Weiß can be used directly on high-grade MDF boards, has a good staying power and is therefore ideally suitable for painting vertical and suspended parts.

- + quick drying
- + high body level
- + very good sanding properties
- + good firmness on vertical surfaces
- + excellent permanent flexibility
- + free of aromatic compounds

**Due to its good staying power, also suitable for profiled workpiece shapes and battens.**

<b>Product no.</b>	25501
<b>Container</b>	4 kg, 24 kg
<b>Hardener</b>	PUR-Hardener 8419

## ADURO ECOFILL SMART

This high-quality, solvent-based 2C spray filler for pigmented structures is extremely easy to sand and produces very little sanding dust. Aduro Ecofill Smart can be applied directly onto MDF and can be painted over after only a few hours. Produces convincing results with good coverage and insulating effect.

- + universal application
- + very easy to use
- + easy to sand and produces very little sanding dust
- + user-friendly: free from titanium dioxide
- + can be applied directly onto MDF
- + good insulating effect
- + can be painted over after only a few hours
- + better coverage results with mass colours
- + thanks to a greater range of colours

**A selection of basic colours ensures an even more intense opaque surface when the filler is painted over with a mass colour. Small areas of damage in the surface of the topcoat are less noticeable.**

<b>Product no.</b>	2317050000
<b>Container</b>	4 kg, 24 kg
<b>Farbtöne:</b>	white, black, yellow, red, blue, green, brown

## ADURO SUPERFILL

Characteristic features of Aduro Superfill are its quick drying, optimum filling power and very good grindability. The opaque 2-component polyurethane insulating filler is characterised by good stability on vertical surfaces and outstanding permanent elasticity.

- + quick drying
- + high filling power
- + very good grindability, also with grinding machine
- + outstanding stability & permanent elasticity
- + can be used on high-quality MDF boards

**Primer with good filling power for opaque pigment paint structures.**

<b>Product no.</b>	2318050000
<b>Container</b>	24 kg
<b>Hardener</b>	PUR-Hardener 8403
<b>Thinner</b>	DD-Verdünner 8519

## ADURO PIGMOCOLOR 4IN1

Excellent performance and a universal range of applications – that's what you get with Aduro Pigmocolor 4in1. This high-quality, solvent-based pigment paint can be used in a variety of ways: to provide insulation, as a filler, or as a coloured paint or spray paint, and it comes in lots of colours (all RAL and NCS colours) and three levels of gloss.

- + uniform matt surface with no cloud formation
- + excellent stackability and coverage
- + pleasant feel
- + good filling performance
- + very easy to sand and fast drying
- + can be applied directly onto MDF
- + outstanding chemical and mechanical
- + resistance (extremely good ring indentation resistance)
- + can be tinted with PUR | Mix

**The complete solution for a greater variety of colours in three levels of gloss.**

<b>Product no.</b>	2241000010
<b>Container</b>	1 kg, 4 kg, 20 kg
<b>Colours</b>	3 standard colours & 20 pigment pastes, available in all RAL and NCS colours.
<b>Degree of gloss</b>	G10, G30, G50
<b>Hardener</b>	PUR-Hardener 8419 or PUR-Hardener 8420 S

# POLYURETHANE COATINGS

## PIGMOPUR

This pigment coat leaves no colour shade to be desired and it impresses with higher covering power and excellent stability on edges and vertical components.

- + high-class polyurethane pigment coat
- + excellent light fastness
- + sharp pore pattern with open-pore coating

**By adding Pigmofix RF 90695 you can obtain surfaces resistant to abrasion by metallic objects**

<b>Product no.</b>	24005

	Copper	2492053433

<b>Container</b>	0,9 kg
<b>Hardener</b>	PUR-Hardener 8419

# OILS & WAXES

The products of the Legno range whose formulation is based on renewable raw materials are not only eco-friendly and healthy for living, but they are primarily user-friendly in application and thus, efficient to use by the professional. With the wide range of oils, waxes, hard wax oils and preservative products, you can meet the needs and requirements of all natural surfaces – regardless of whether it is a piece of furniture, interior decoration or a parquet floor. You can also use coloured oil-based coatings without a problem.

© ANREI

## LEGNO-DURA-ÖL

Optimal protection – that is what Legno-Dura-Öl stands for. This product combines the best properties from the worlds of oils and varnishes. Legno-Dura-Öl is extremely hard-wearing and is therefore also suitable for more heavily stressed surfaces that require a high level of protection in addition to a natural look and pleasant feel – such as floors and stairs.

- + natural surface and excellent protection
- + very good chemical resistance
- + low tendency to gloss
- + natural feel and elegant gradient
- + universal processability, no need to wipe off
- + Decopaint-Conform

**Thanks to its high durability, Legno-Dura-Öl is ideal for application on more heavily stressed surfaces.**

**Product no.** 7035000200  
**Container** 750 ml, 2,5 l, 10 l

## LEGNO-ÖL

The user-friendly, fast-drying Legno-Öl is suitable for all surfaces made from hardwood or softwood indoors. The oil penetrates deeply into the surface, it is water-repellent and emphasises the natural texture of the wood with excellent grain accentuation. Liquids and dirt can be washed off easily.

- + food-compatible surface treatment
- + easy to use
- + fast drying
- + repels water and dirt
- + slip-resistant and anti-static
- + pleasant feel and touch
- + not self-igniting

**Universal oil for furniture and items of interior decoration, parquet and wooden flooring indoors.**

**Product no.** Colorless 7006000200  
 White 7006050000  
**Container** 750 ml, 2,5 l, 5 l

# OILS AND WAXES

## LEGNO-WACHS

The Legno-Wachs applied on wooden surfaces acts like a water-repellent and dirt-repellent protective film. It lends a matt finish to wood components treated with it and gives them uniform appearance as well as velvet-like soft grip. You can obtain surfaces with a special feel when the wax is polished with a brush having leather gusset after allowing the wax to dry overnight.

- + easy to use
- + fast drying
- + fancy matt finish
- + velvet-like soft grip
- + anti-static
- + not self-igniting

**Legno-Wachs is perfectly suited for obtaining natural, velvet-like soft surfaces on items of furniture and interior decoration.**

**Product no.** 7008000210  
**Container** 750 ml, 5 l

## LEGNO-HARTWACHSÖL

Legno-Hartwachsöl (hard wax oil) comprises naturally renewable raw materials and combines the favourable properties of oils and waxes. This product with high solid content is particularly eco-friendly on account of its high content of solids. Compared to other Legno products, it is generally sufficient to apply Legno-Hartwachsöl (hard wax oil) only once.

- + particularly eco-friendly
- + good durability and excellent grain accentuation
- + anti-static
- + only one coat is required
- + meets the UZ 06 guidelines
- + declared in baubook

**Especially environmentally friendly.**  
**It is also suitable for parquet floors.**

**Product no.** 7002000200  
**Container** 750 ml, 2,5 l

## LEGNO-AQUA-ÖL

The special feature of Legno-Aqua-Öl is the lower grain accentuation compared to a classic oil, which makes the surface look natural. Legno-Aqua-Öl is free of solvents and plasticisers. Despite a pleasant, fine feel, the product offers good surface protection. These properties and the high proportion of renewable raw materials make this water-based wood oil unique.

- + water-based, ecological wood oil based on renewable raw materials
- + Cradle to Cradle Certified® Bronze certified
- + resistance to saliva and perspiration (DIN 53160/1 and DIN 53160/2)
- + matt surface with low grain accentuation
- + quick drying and good surface protection
- + declared in baubook

**For furniture and interior fittings where the surface should appear particularly natural.**

**Product no.** 7030000200  
**Container** 750 ml, 2,5 l, 22 l

## LEGNO-COLOR

Relying on natural wood finish does not mean dispensing with variety in colours. With Legno-Color, ADLER offers an oil, which enables you to use a wide range of colours in your unique design. In the process, the texture of the wood is not covered, but you achieve uniform colouration.

- + easy to use
- + fast drying
- + can be blended in various colours
- + uniform colouration
- + excellent resistance to water
- + not self-igniting

**With the wide range of colours, this coloured oil facilitates unique design of furniture, items of interior decoration, parquet and wooden floors indoor.**

**Product no.** W30 50875  
**Container** 750 ml, 2,5 l

## LEGNO-ZIRBENÖL

Particularly in sleeping and relaxation areas, people increasingly appreciate the positive properties of Swiss pine on their feeling of well-being. The high quality Legno-Zirbenöl is used to protect against stains and to care for furniture made of Swiss pine. The natural properties of the Swiss pine and its fragrance are maintained. Legno-Zirbenöl contains 100 % pure organic Swiss pine oil among other things. It soaks in quickly and has a water-repellent effect.

- + simple usage
- + fast drying
- + water-repellent
- + perspiration and spittle-resistant (DIN 53160/1 and DIN 53160/2)
- + pleasant feel
- + not self-igniting

**Natural biological Swiss pine oil to protect and care for Swiss pine wood. Contains the natural fragrance of the wood.**

**Product no.** 7028000200  
**Container** 750 ml, 2,5 l

## LEGNO-REINIGER & LEGNO-PFLEGEÖL

To clean stubborn dirt and grease use Legno-Reiniger (cleaner). The universal Legno-Pflegeöl (care oil) freshens up oiled wood surfaces. It soaks deep and quickly into the surface. The oil is spread thinly and evenly on the furniture simply by wiping.

- + simple usage
- + cleans and refreshes wood surfaces
- + mild odour
- + Legno-Pflegeöl is quickly absorbed

### Legno-Reiniger (cleaner)

**Product no.** 7003000210

**Container** 250 ml, 1 l

### Legno-Pflegeöl (care oil)

**Product no.** 7009000210

**Container** 250 ml, 1 l

## LEGNO-PFLEGESET

High quality set for the regular cleaning and care of oiled wood surfaces such as furniture, wood and parquet floors as well as interior fixtures.

**Product no.** 702900021001

**Contents** Legno-Reiniger 100 ml  
Legno-Pflegeöl 100 ml  
abrasive grit  
cleaning cloth  
care instructions

## CARE

### CLEAN-MÖBELREINIGER & CLEAN-MÖBELPFLEGE PLUS

Clean-Möbelreiniger (Furniture Detergent) contains cleaning substances that remove dust, dirt and fingerprints from painted surfaces. For additional care we recommend the new Clean-Möbelpflege Plus (Furniture Care). The care product forms a protective film against water and impurities. The enhanced furniture care is also suitable for the preservation of matt and dull matt paint surfaces.

- + cleans and gives a fresh, new appearance
- + protects against water and impurities
- + for the preservation of matt and dull matt surfaces

**The combination of Clean-Möbelreiniger and Clean-Möbelpflege Plus effectively rejuvenates furniture and provides additional protection. Both products are also available as sets. The sets also contain a cloth and a spray head for better application.**

Clean-Möbelreiniger 720200021014  
Clean-Möbelreiniger SET 720200021017  
Container in each case 250 ml

*All materials or components can also be ordered out separately.*

Product no. 9644017

# STAINS

Attempts have been made for several centuries to emphasise the natural beauty of wood more intensely by “colouration”. In this tradition, ADLER has a comprehensive range of wood stains that contributes not only to the most diverse design needs and requirements but also to the most different types of wood. ADLER is always in sync with the times and provides top-class solutions for the most diverse situations and current trends: Should the wood look antique? Or should it look like wood from a cosy farmhouse? With pleasure. Or rather modern and futuristic? This is no issue. With products ranging from “Flex” to “Classic” and right up to “Style” – Austria’s leading expert on wooden surfaces leaves nothing more to be desired when it comes to wood stains. Apart from aesthetic beautification, ADLER wood stains also balance out minor irregularities or different wood colour shades and allow the wood to have an elegant finish once again. ADLER wood stains thus represent a decisive contribution to the aesthetic appreciation of your furniture.

*For detailed information on the ADLER stain range, please refer to our ADLER stain catalogue.*

## WATER-BASED WOOD STAINS

### **Arova Classic**

Hardwood stain for a non-porous stain appearance.

### **Arova Ultra**

Coniferous wood stain for an elegant, distinctive positive stain appearance.

### **Arova Flex**

Hardwood stain with a porous stain pattern for lively surfaces.

### **Arova Colora**

Semi-transparent pigment stain for the staining of hardwoods and softwoods.

### **Arova Alpin**

Softwood stain for an antique-looking, strikingly positive stain appearance on sanded or brushed softwood.

### **Arova Alpin Trend**

Softwood stain on extremely deeply brushed surfaces for a weathered or antique-looking, strongly striking positive stain effect.

### **Arova Style**

Hardwood stain for a calm and particularly even stain appearance.

### **Arova Wax**

Softwood wax stain with positive stain pattern. Brush out with a smoothing brush after drying.

## SOLVENT-BASED WOOD STAIN

### **Arova Rustica**

Hardwood stain for a highly porous and rustic stain appearance.

### **Arova Spritzbeize**

Hardwood stain for a pore-intensive, even overall appearance.

# ADDITIVES

## PIGMOFIX G

This additive increases the adhesion of the paint on glass surfaces and provides good protection against moisture infiltration.

- + easy to stir in
- + creates an excellent paint adhesion on glass
- + good protection against delamination due to moisture

**Product no.** 90699

**Container** 200 g

## PIGMOFIX V

This special additive was developed to create an even and streak-free result when painting glass using a paint roller and to improve how it spreads.

- + delays drying – long open time
- + good processing properties
- + improves the spreading properties

**Product no.** 90694

**Container** 400 g

**Paint runs through our veins.**

90 years ago, Johann Berghofer laid the foundation stone for ADLER and work was started to develop its own paints.

Much has changed since that time, but one thing has stayed the same: our passion for colour, which drives us day after day to work on the perfect surface coating.

**Paint runs through our veins.**
