

**MADE FOR
THE MASTER'S
HAND**

Paint runs through our veins.

Furniture paints & varnishes

PRODUCT CATALOGUE

A future-oriented family business since 1934

Austria's leading manufacturer of paints, varnishes and wood preservers

Sole production site in Schwaz, Austria

Annual production: over 20,000 tonnes

Europe's most advanced water-based coatings factory

730 employees, including 120 in Research & Development

Environmentally friendly products, 68% water-based paints and varnishes

Naturpark
**Karwendel
Partner**

Impartial observers have also recognised ADLER's achievements: Quality, a responsible approach to doing business and social responsibility are not things that we simply pay lip service to. As is proven by our numerous awards in a wide range of areas and certifications for which the coatings factory regularly undergoes strict inspections.

ADLER is a partner of the Karwendel Nature Park, the largest protected area in North Tyrol, just a short distance from the ADLER factory. Our support enables the implementation of various key projects relating to ecology, biodiversity and climate education. We are thereby helping to raise awareness of sustainability and environmental and climate protection, both within our region and beyond.

IF YOU PUT YOUR HEART AND SOUL INTO A TASK, YOU WON'T WANT TO DO THINGS BY HALVES.

With this philosophy, ADLER has become a leading expert in surface finishing. And especially so when the material in question is wood. We have a comprehensive range of products that covers the most diverse of design requirements as well as every possible type of wood. From wood stains and both polyurethane and water-based paints and varnishes through to oils and waxes and products for professional maintenance and after-care.

THE DEMANDS OF THE FUTURE

With eco-friendly products, you will be working sustainably, responsibly and successfully:

- **because you will be well prepared for the steadily growing number of statutory requirements.**
- **because more and more customers are calling for eco-friendly and sustainable products.**
- **because you are ensuring healthy, clean and safe production processes within your company.**
- **because you will be actively taking responsibility for environmental and climate protection, and thus for a liveable future.**

Paint runs through our veins.

ADLER green is the label used for the most sustainable coatings in the ADLER product range. In line with the UN's Sustainable Development Goals, ADLER is pursuing a clear and consistent strategy for a responsible approach to business that is aligned with environmental and climate goals. All the products are objectively tested according to three categories: environment, health & safety and lifespan.

Further information on ADLER green and the assessment criteria used can be found on our website adler-lacke.com/green.

Environment

- high percentage of natural raw materials
- small carbon footprint
- without the addition of environmentally harmful substances
- low VOC content

Health & Safety

- without the addition of allergens or substances that pose a health hazard
- products can be used without any health risk

Lifespan

- long shelf life
- highly durable
- good color stability

WATER-BASED COATINGS

Nature is a precious commodity and we need to protect it as best we can. This is why ADLER has been investing such a lot of time and money in recent years in the development of water-based paints and varnishes that meet the high standards of quality required in trade and industry, despite their low solvent content.

All of ADLER's water-based paints and varnishes can boast excellent cream and grease resistance. And we should not overlook the fact that today's water-based paint and varnish systems are in fact superior to solvent-based coatings in many respects, e.g. filling performance, recyclability, elasticity. The key thing, however, is that ADLER's water-based paints and varnishes protect your furniture in a way that is environmentally friendly yet reliable.

BLUEFIN TERRA-DIAMOND

Water-based 2K primer and topcoat Bluefin Terra-Diamond is made from more than 85 % natural raw materials. The excellent surface protection it provides, its ease of use and absolute fitness for purpose clearly demonstrate that Bluefin Terra-Diamond is in no way inferior to conventional varnishes.

- + 85% natural or renewable raw materials
- + low VOC content (less than 6%)
- + 31 % fewer CO₂ emissions
- + free from plasticisers and formaldehyde
- + no heavy metals, therefore suitable for children's toys
- + very good chemical resistance
- + extremely scratch resistant
- + can be applied directly onto oak surfaces
- + declared in baubook

Despite the high percentage of renewable raw materials it contains, this varnish achieves excellent chemical resistance (ÖNORM A1605-12 1-B1 and DIN 68861 1B) and is therefore ideal for varnishing surfaces that are subject to normal to heavy wear in furniture and interior finishing.

Product no.	2962000105
Container	4 kg, 20 kg
Degree of gloss	G05, G10, G30, G50, G70
Hardener	Aqua-Hardener 8451

NEW

WATER-BASED COATINGS

BLUEFIN TERRA-RESIST

Water-based, single-component clear varnish for wood, containing a percentage of renewable raw materials – for high performance and improved sustainability. This varnish combines a sustainable formula with a high degree of chemical and mechanical resistance. It offers excellent cream and grease resistance, good grain accentuation, clear transparency and impressive filling performance. A special UV filter reliably protects wood and stains from premature yellowing. The product can be applied using the "varnish on varnish" method.

- + Water-based, 1K clear varnish with a percentage of renewable raw materials
- + High degree of chemical and mechanical resistance
- + Excellent resistance to cream and grease
- + Good grain accentuation, transparency and filling performance
- + Integrated UV filter protects wood and stains from yellowing or fading
- + Complies with ÖNORM A 1605-12: 1-B / DIN 68861-1: 1 B
- + Meets the requirements of EN 71-3 and DIN 53160 (for saliva- and sweat-resistant surfaces)

A high-performance and yet resource-efficient clear varnish for long-lasting protection and an attractive, high-quality finish on wooden surfaces.

Product no. 2972000105
Containers 5 kg, 25 kg
Gloss levels G05, G10, G30, G50, G70

BLUEFIN SMART

Our innovative furniture varnish Bluefin Smart is paving the way for a completely new type of surface treatment – with just one spray application followed by sanding to ensure a smooth surface, and you're done. This "smart" companion saves the user both time and money. As well as being very efficient to use, this clear varnish, with its dull matt look and velvety feel, creates natural-looking items of furniture in no time at all.

- + saves time and money: one coat and you're done
- + natural-looking surface
- + dull matt look with a velvety feel
- + will not form shiny areas
- + low emissions: VOC content less than 3 %
- + very good mechanical resistance
- + provides optimum protection against scratches
- + suitable for living room and bedroom furniture and for interior finishing

Efficient to use as only one coat is required.

Product no. 2990000105
Container 4 kg, 20 kg
Hardener Aqua-Hardener 8451

BLUEFIN PURE-WOOD

Water-based 2K furniture varnish, ideal for achieving an untreated look and feel on wooden surfaces. Renewable raw materials preserve the natural beauty of the wood and ensure an eco-friendly living environment.

- + efficient and straightforward to use, especially on porous hardwoods (e.g. oak, walnut)
- + only a small quantity required per application
- + fast drying
- + reliable protection against marks and scratches
- + for industrial use

Natural, matt surfaces with reliable protection against marks and scratches: this is the recipe for success of Bluefin Pure-Wood.

Product no. 2980000105
Container 4 kg, 10 kg, 22 kg
Hardener Aqua-Hardener 8450

BLUEFIN UNISTAR BLUEFIN UNISTAR THIX

Bluefin Unistar and Bluefin Unistar Thix can be used as either single- or two-component products using the "varnish on varnish" method, and can be applied directly onto many types of wood, e.g. oak. Further plus points include rapid drying and good block resistance, as well as excellent filling performance, transparency and durability. Their VOC-free formula makes them especially environmentally friendly.

- + suitable for universal use: 1K or 2K
- + very fast drying and stackable after only a short time
- + outstanding filling performance and transparency
- + very good grain accentuation
- + effectively protects wood from scratches and marks
- + the ideal product for varnishing toys (EN 71-3)
- + awarded the Austrian Ecolabel and declared in baubook

The water-based all-rounder for all interior applications.

Product no. 2965000105 | 2966000105
Container 4 kg, 22 kg, 120 kg
Degree of gloss G05, G10, G30, G50, G70
Crosslinking agent Aqua-Crosslinker 8481

WATER-BASED COATINGS

BLUEFIN STEP-SILENT

Bluefin Step-Silent reduces creaking sounds on wooden stairs, creates a non-slip surface and can be used as either a 1K or a 2K varnish. Due to its improved resistance to wear-through and abrasion, Bluefin Step-Silent can withstand a high level of mechanical stress, even when used as a single-component product.

- + no creaking sounds
- + excellent abrasion resistance
- + very good stability on vertical surfaces
- + outstanding chemical resistance
- + resistant to creams and grease
- + can be used as a 1K or 2K product
- + creates a non-slip surface
- + slip-resistance rating R9 in accordance with DIN 16165

Developed for staircase coating in trade and industry.

Product no. 2967000110
Container 4 kg, 22 kg
Degree of gloss G10, G30, G50
Hardener Aqua-Hardener 8450

BLUEFIN TOP-ANTISCRATCH

Water-based, highly durable 2K topcoat for furniture surfaces where the best possible chemical resistance and outstanding scratch resistance are called for.

- + best possible chemical resistance
- + can be used as a topcoat for both surfaces coated with a pigmented paint and for colourless varnished surfaces
- + very good mechanical resistance
- + produces surfaces with a high degree of ring test resistance
- + non-yellowing

Bluefin Top-Antiscratch gives furniture the best possible protection from signs of everyday use.

Product no. 2960000105
Container 4 kg, 20 kg
Degree of gloss G05, G10, G30, G50, G70
Hardener Aqua-Hardener 8451

BLUEFIN SOFTMATT

Bluefin Softmatt is used in settings where an especially natural, deep matt surface is required that is pleasant to the touch. Whatever angle you view it from, the surface always looks uniform with a consistently deep matt gloss level – without any annoying marks thanks to the anti-fingerprint properties of the coating.

- + can be used as a topcoat, but also varnish-on-varnish
- + outstanding all-round properties – for colourless natural coating systems or as a topcoat for coloured surfaces
- + deep matt, warm, feel-good surface with an exquisite, silky soft feel
- + very uniform matt finish
- + very natural pore pattern, creating an especially natural appearance
- + anti-fingerprint properties

Especially suitable for furniture in the home and in interior finishing.

Product no. 3052000105
Container 4 kg, 20 kg
Hardener Aqua-Hardener 8451

BLUEFIN BASE HT

Bluefin Base HT is a water-based 2K primer with good filling performance, solvent-like grain accentuation and outstanding transparency. It has a strong insulating effect, protects against yellowing and is also suitable for exotic woods. Bluefin Base HT can also be used as a filling primer for closed-pore coating systems. Suitable topcoats would be water-based furniture varnishes such as Bluefin Top-Antiscratch and Bluefin Unistar.

- + excellent grain accentuation and transparency
- + no activation of substances in the wood
- + UV protection against fading of the substrate
- + also for closed-pore coating systems

For an especially sustainable coat of primer with optimal filling performance.

Product no. 2916000200
Container 4 kg, 22 kg
Hardener Aqua-Hardener 8451

WATER-BASED COATINGS

BLUEFIN ROCKETFILL

1K spray filler for surfaces on furniture and interior fittings that have been coated with water-based pigmented paint.

- + very good filling performance and easy to sand
- + hardens quickly
- + can be applied directly onto MDF boards, very little roughening of fibres

For an especially sustainable coat of primer with optimal filling performance.

Product no. 3138050000
Container 25 kg
further container sizes available on request

BLUEFIN ISOSPEED

Water-based, opaque spray filler which is fast drying, offers very good filling performance and is extremely easy to sand. Bluefin Isospeed is available in all colours in the RAL colour palette and can be used as either a 1K or a 2K product. When used as a 2K product, provides very good insulation against water-soluble natural colourants in the wood and can be applied directly onto MDF boards.

- + very good stability
- + extremely easy to sand (also with a sander)
- + fast drying
- + can be used as a 1K or 2K product
- + can be tinted into any RAL shade

Its excellent stability means that Bluefin Isospeed can also be used for hanging and vertical coating of furniture and interior fittings.

Product no. 3134000010
Container 4 kg, 22 kg
Colours W10 White, tintable 3134000010
 Base W30 3134000030
 Black 3134500001
further RAL shades can also be supplied

Hardener Aqua-Hardener 8450

BLUEFIN PIGMOCRYL NG

Water-based, single-component pigmented paint which offers rapid drying and good mechanical and chemical resistance. This coloured paint can be tinted to create any NCS or RAL colour and gives excellent coverage.

- + fast drying
- + high degree of block resistance
- + excellent coverage
- + wide variety of colours
- + highly resistant to mechanical and chemical stress and to the effects of light
- + to be used in single-component form
- + the product can be tinted with ADLER | Mix

For use on surfaces painted with open- and closed-pored pigmented coating systems on furniture and interior fittings.

Product no.	3201000010
Container	1 kg, 4 kg, 22 kg
Colours:	can be tinted to all RAL, NCS and sanitary ware shades
Degree of gloss	G10, G30, G50

BLUEFIN PIGMOSOFT

Bluefin Pigmosoft offers a clear advantage over other matt paints with its innovative self-regenerative properties, which protect the surface from developing shiny areas and allow it to regenerate automatically in the case of heavy wear. Fingerprints can be almost completely avoided thanks to its special anti-fingerprint protection.

- + innovative self-regenerative properties
- + very good resistance to scratches and ring marking
- + excellent resistance to formation of shiny areas
- + anti-fingerprint protection
- + dull matt look with a velvety feel
- + great coverage and resistance to light
- + available in all RAL and NCS colours

Self-regenerating 2K pigmented paint with a velvety feel and a dull matt look.

Product no.	3295000010
Container	4 kg, 20 kg
Hardener	Aqua-Hardener 8451

BLUEFIN PIGMORES 4IN1

This water-based complete solution is an insulator, filler, coloured paint and varnish all in one. Bluefin Pigmares 4in1 is very straightforward and simple to use and at the same time provides good filling performance and is easy to sand.

- + water-based 2K pigmented paint
- + very good filling performance and extremely easy to sand
- + high degree of chemical and mechanical resistance
- + extremely good ring test resistance
- + can be applied directly onto MDF boards
- + resistant to creams and grease
- + free from organotin compounds, low VOC emissions
- + wide colour palette
- + also available as a textured paint

The water-based complete solution that puts efficiency first.

Product no. 3501000010
Container 4 kg, 22 kg
Degree of gloss G10, G30, G50
Hardener Aqua-Hardener 8452

BLUEFIN PIGMORES NXT

The new NXT quality complements the other well-established products in the water-based Pigmares 4in1 range, delivering outstanding durability for furniture, kitchens, interior doors, chairs and more, even in extremely matt Degree of gloss (approx. G04).

- + water-based 2K pigmented paint (filler, coloured paint, topcoat)
- + dull matt surface and a smooth feel
- + high degree of chemical and mechanical resistance
- + can be applied directly onto primer film (melamine resin) as well as onto MDF boards
- + resistant to creams and grease
- + low VOC content
- + wide range of colours, can be tinted with ADLER | Mix

Guarantees outstanding scratch resistance on dull matt painted surfaces, with very little tendency to form shiny patches and a smooth feel.

Product no. 3507000010
RAL, NCS and other shades on request
Container 4 kg, 20 kg
Hardener Aqua-Hardener 8452

POLYURETHANE COATINGS

A beautiful, high-quality piece of furniture is a pleasure to own – it creates a pleasant and harmonious living environment. So that we can enjoy this feeling for as long as possible, we need to protect the wooden surface from everyday wear and tear: paints and varnishes

ADLER offers the right PUR paints and varnishes for many different types of wood and for a diversity of design ideas. In doing so, they always guarantee premium quality and efficiency for the user. This allows you to fulfil almost any surface requirement that your customers may have.

ADURO LEGNOPUR

With its lightfast raw materials, this high-quality 2K PUR furniture varnish can also be used as a topcoat on surfaces that have been painted with white or coloured paint.

- + outstanding filling performance
- + lightfast and non-yellowing
- + flame-retardant in accordance with ÖNORM A3800-1 and EN 13501-1
- + excellent sag resistance on vertical surfaces
- + safe to use for coating toys

Aduro Legnopur fulfils all the requirements of a modern coating system with a particularly impressive range of all-round properties.

Product no.	2513000110
Container	4 kg, 20 kg, 180 kg
Degree of gloss	G10, G30, G50, G70, G90
Hardener	PUR-Hardener 8419

ADURO VENTO

Our fast drying 2K PUR varnish Aduro Vento is a top performer, offering outstanding quality and a wide range of possible uses, while also being very user-friendly. Especially at lower levels of gloss, Aduro Vento demonstrates its reliability by creating uniform matt surfaces without the formation of cloudy areas.

- + cloud-free matting effect, uniform finish even with large matt surfaces
- + can be applied using the "varnish on varnish" method or as a spray-on varnish on coloured surfaces
- + fast drying
- + attractive pore pattern
- + good grain accentuation
- + optimal light protection thanks to modern UV filters
- + very good mechanical and chemical resistance

Food-safe coating; wide range of possible uses with perfect results.

Product no.	2660000110
Container	4 kg, 20 kg
Degree of gloss	G10, G30, G50
Hardener	PUR-Hardener 8419

POLYURETHANE COATINGS

ADURO SELECT

Aduro Select is a solvent-based, single-component clear varnish that is especially easy to use and has a wide range of possible uses. This varnish offers a very high degree of mechanical and chemical resistance, is extremely efficient and can be used on all types of furniture surface. As a further option, you can also use Aduro Select as a two-component product for surfaces that are subject to heavy wear.

- + very good filling performance and good grain accentuation
- + very good mechanical and chemical resistance: 1-B ÖNORM A 1605-12.1 and 1B DIN 68861-1 (1K use) as well as 1-B1 ÖNORM A 1605-12.1 (2K use)
- + light stabilisers protect the wood from rapid yellowing
- + low-odour and free from aromatic hydrocarbons
- + resistant to perspiration and saliva
- + suitable for toys (ÖNORM EN 71-3)

The ease of use of a 1K varnish combined with excellent durability makes Aduro Select a straightforward all-rounder.

Product no. 2679000110
Container 4 kg, 20 kg
Degree of gloss G10, G30, G50
Hardener PUR-Hardener 8429

ADURO VITEA

Aduro Vitea is an innovative 2K PUR varnish that protects and preserves the authentic character of wood. With its 1-B1 resistance (ÖNORM A 1605-12.1), it offers the same level of protection as conventional polyurethane coatings, yet the surface looks as though it is untreated due to the neutral grain accentuation and natural feel.

- + natural raw wood look
- + neutral grain accentuation with a natural feel
- + attractive pore pattern
- + very good light protection
- + fast drying and easy to sand
- + very good chemical and mechanical resistance
- + suitable for surfaces that are subject to heavy wear in furniture and interior finishing, kitchens and bathrooms, as well as hotel and school facilities

A convincingly natural look with dependable protection.

Product no. 2651000105
Container 4 kg, 20 kg
Hardener PUR-Hardener 8439

ADURO ANTISCRATCH

Even steel wool won't damage this extremely robust varnish, which is made with new, innovative raw materials. With outstanding chemical and mechanical resistance, it delivers perfect protection for surfaces that are subject to heavy use.

- + top-class 2K PUR varnish with good filling performance, made with new, innovative raw materials
- + extremely hard surface with very good scratch resistance
- + for surfaces in furniture and interior finishing that are subject to heavy wear
- + can be used as a topcoat or with the "varnish on varnish" method
- + lightfast and non-yellowing
- + resists ignition, flame retardant

Does your tabletop have to put up with a lot of wear and tear? You can rely on the invisible protection of Aduro Antiscratch HQ.

Product no. 2517000105
Container 4 kg, 20 kg
Degree of gloss G05, G10, G30, G50
Hardener PUR-Hardener 8419

ADURO ISOFIN

Aduro Isofin, ADLER's new brightening varnish, creates stylish surfaces with an authentic, dull matt look, while retaining the natural colour of the wood and is very easy to apply. Its brightening effect makes this 2K polyurethane clear varnish especially suitable for light-coloured woods and for reclaimed wood and it retains the look of sanded, untreated wood.

- + brightening effect
- + natural, dull matt look & feel
- + attractive pore pattern
- + fast drying
- + good chemical & mechanical resistance
- + for lighter coloured woods such as maple, oak or spruce and for reclaimed wood

The pure wood look for lighter-coloured woods.

Product no. 2652000105
Container 4 kg, 20 kg
Degree of gloss G05, G10, G30

POLYURETHANE COATINGS

ADURO PIGMOTOP

This fast-drying polyurethane topcoat is especially suitable for "ring test"-resistant surfaces coated with pigmented paint on furniture and interior fittings. With Aduro Pigmotop G100, you can create stunning high-gloss surfaces.

- + very good mechanical and chemical resistance
- + outstanding resistance to yellowing
- + ring test-resistant

Aduro Pigmotop, your first choice for ring test-resistant surfaces coated with pigmented paint.

Product no.	2514000110
Container	4 kg, 20 kg
Degree of gloss	G10, G30, G50, G70, G100
Hardener	PUR-Hardener 8419

ADURO HIGH-GLOSS

This colourless 2K high-gloss varnish brings you optimum surface hardness while also being easy to polish and also creates an impressive crystal-clear shine with excellent resistance to yellowing.

- + especially user friendly as it is so easy to apply
- + outstanding results with buffing and polishing
- + fast drying
- + good filling performance
- + very good mechanical and chemical resistance
- + non-yellowing
- + brilliant shine

Brilliant shine with no yellowing for your high-gloss coating systems.

Product no.	2634000100
Container	3 kg, 18 kg

ADURO PRIMER

This fast-drying 2K PUR base coat is especially suitable for use as a primer under water-based paints and varnishes. Aduro Primer roughens up the surface of the wood to a lesser degree than water-based base coats, thereby reducing the amount of work required in intermediate sanding.

- + very good grain accentuation
- + very easy to sand
- + good filling performance
- + no issues with discolouration from water-soluble ingredients of the wood

Aduro Primer is especially suitable for use as a primer under water-based coatings.

Product no. 2523000210
Container 4 kg, 20 kg
Hardener PUR-Hardener 8419

ADURO STRONG

Thanks to a high degree of mechanical and chemical resistance, Aduro Strong is ideal for use on surfaces that are subject to heavy wear. This 2K polyurethane clear varnish creates strong grain accentuation and delivers outstanding filling performance.

- + very good mechanical and chemical resistance
- + especially for interior surfaces that are subject to heavy wear
- + very good filling performance
- + good grain accentuation
- + excellent resistance to yellowing

High degree of protection and durability for surfaces in interior spaces that are subject to heavy wear.

Product no. 2528000110
Container 4 kg, 20 kg
Degree of gloss G10, G30, G50, G70
Hardener PUR-Hardener 8429
Thinning DD-Verdünner 8519
PUR-Verdünner 8529

POLYURETHANE COATINGS

ADURO FÜLLGRUND HT

This highly transparent primer can also boast very good filling performance, good drying properties and excellent permanent elasticity. Aduro Füllgrund HT is especially suitable for achieving sophisticated high-gloss coatings.

- + outstanding transparency, brilliant depth
- + very good filling performance
- + good grain accentuation
- + excellent pore penetration and flow
- + good light protection

For extremely transparent coating systems with especially good filling performance, for use in furniture and interior finishing. Particularly well-suited to the application of several coats.

Product no.	2530000200
Container	5 kg
Hardener	PUR-Hardener 8433
Thinning	DD-Verdünner 8519

ADURO ECOFILL

This opaque 2K insulating filler dries rapidly, delivers very good filling performance and is very easy to sand. PUR-Ecofill White can be applied directly onto high-quality MDF boards. The filler has good sag resistance and is therefore highly suitable for coating vertical or hanging surfaces.

- + fast drying
- + very good filling performance
- + very easy to sand
- + good stability on vertical surfaces
- + excellent permanent elasticity
- + free from aromatic hydrocarbons

Due to its good sag resistance, also suitable for profiled work pieces and mouldings.

Product no.	2416050000
Container	4 kg, 24 kg
Hardener	PUR-Hardener 8419

ADURO ECOFILL SMART

This high-quality, solvent-based 2K spray filler for pigmented coating systems is extremely easy to sand and produces very little sanding dust. Aduro Ecofill Smart can be applied directly onto MDF and can be painted over after only a few hours. Produces convincing results with good coverage and a good insulating effect.

- + suitable for universal use
- + very easy to use
- + easy to sand and produces very little sanding dust
- + user-friendly: free from titanium dioxide
- + can be applied directly onto MDF
- + good insulating effect
- + can be painted over after only a few hours
- + better coverage results with solid shades thanks to a wider range of colours

A range of base colours ensures an even more intense opaque surface when you paint over them with solid colours. Small areas of surface damage in the topcoat are less noticeable.

Product no. 2317050000
Container 4 kg, 24 kg
Colours White, Black, Gelb, Rot, Blau, Grün, Braun
Hardener PUR-Hardener 8419

ADURO SUPERFILL

Stand-out features of Aduro Superfill are its fast drying properties, optimum filling performance and extreme ease of sanding. This opaque 2K polyurethane insulating filler offers good stability on vertical surfaces and outstanding permanent elasticity.

- + fast drying
- + very good filling performance
- + very easy to sand, also with a sander
- + outstanding stability and permanent elasticity
- + can be used on high-quality MDF boards

Primer with good filling performance for opaque pigmented paint systems.

Product no. 2318050000
Container 24 kg
Hardener PUR-Hardener 8403
Thinning DD-Verdünner 8519

POLYURETHANE COATINGS

ADURO PIGMOCOLOR 4IN1

Outstanding performance and a wide range of possible applications – that's what you get with Aduro Pigmcocolor 4in1. This high-quality, solvent-based pigmented paint can be used in various ways: to provide insulation, as a filler or as a coloured or spray paint. It comes in lots of colours (all RAL and NCS colours) and three levels of gloss.

- + uniform matt surface with no cloud formation
- + excellent stackability and coverage
- + pleasant feel
- + good filling performance
- + very easy to sand and fast drying
- + can be applied directly onto MDF
- + outstanding chemical and mechanical resistance (very good resistance to ring marking)
- + can be tinted with PUR | Mix

The complete solution for greater colour diversity in three Degree of gloss.

Product no.	2241000010
Container	1 kg, 4 kg, 20 kg
Colours	3 standard shades and 20 pigments pastes, <i>available in all RAL and NCS shades</i>
Degree of gloss	G10, G30, G50
Hardener	PUR-Hardener 8419 or PUR-Hardener 8418

PIGMOPUR G50

This pigmented paint is available in almost any colour you could imagine and can also boast impressive coverage and outstanding sag resistance on edges and vertical parts.

- + high-quality polyurethane pigmented paint
- + excellent light fastness
- + well-defined pore pattern with open-pored coatings

The addition of Pigmofix RF 90695 results in surfaces that are to a large extent ring-test resistant.

Product no.	24005
Container	1 kg, 3 kg (only base colours), 4 kg, 20 kg
Colours	12 base colours, <i>can be tinted to all RAL, NCS, sanitary ware shades</i>
Degree of gloss	G50
Hardener	PUR-Hardener 8419 or PUR-Hardener 8418

PIGMOPUR GLOSS NG

This high-gloss paint can be used as a 2K product and is now available in the full RAL colour range. Stand-out features of this glossy 2K PUR paint are its brilliance and good coverage. The high-gloss paint dries very quickly and can be wiped and polished after just 24 hours. It is equally suitable for use in trade and in industry.

- + pigmented 2K PUR high-gloss paint
- + fast drying
- + can be wiped and polished after just 24h
- + brilliant shine
- + very good mechanical and chemical resistance
- + very easy to use
- + good coverage

Pigmopur Gloss is suitable for creating high-gloss pigmented surfaces on furniture, interior fittings and fronts in living spaces.

OILS & WAXES

The products in the Legno range are formulated with renewable raw materials and are therefore environmentally friendly and promote a healthy living atmosphere, and they are also very user-friendly, making them efficient to use for professional painters and decorators. Our wide range of oils, waxes, hard wax oils and after-care products allows you to meet the needs of all natural surfaces – whether you are dealing with a piece of furniture, an interior finishing component or a parquet floor. On-trend coloured oil finishes can also be achieved without an issue.

LEGNO DURA-ÖL

Best possible protection – that's what you get with Legno Dura-Öl. This product combines the best properties of both oils and varnishes. Legno Dura-Öl is extremely hard-wearing and therefore also suitable for surfaces that will be subject to heavier wear and require greater protection as well as a natural look and a pleasant feel.

- + natural surface and outstanding protection
- + very good chemical resistance
- + very little tendency to form shiny areas
- + natural feel and flows beautifully
- + suitable for universal use,
no need to wipe off excess!
- + complies with the Decopaint Directive

As it is so robust and durable, Legno Dura-Öl is ideal for use on surfaces that are subject to heavier wear.

Product no. 7035000200
Container 750 ml, 2.5 l, 10 l

LEGNO ÖL

Legno Öl is user-friendly and fast drying and is suitable for all surfaces made from soft or hardwoods in interior spaces. The oil penetrates deep into the surface, is water repellent and underlines the natural texture of the wood with very good grain accentuation. Liquids and dirt can be easily wiped off.

- + food-safe surface treatment
- + easy to use
- + fast drying
- + water-resistant and dirt-repellent
- + non-slip and anti-static
- + pleasant feel

Universal oil for furniture and interior fittings, parquet and wooden flooring in interior spaces.

Product no. Colourless 7006000200
White 7006050000
Container 750 ml, 2.5 l, 5 l

OILS AND WAXES

LEGNO SMART-ÖL

Legno Smart-Öl brings you everything you could wish for: just one application of this natural, high-solids 2K oil gives you reliable protection for surfaces that are subject to heavy wear, as well as intense colours and a luxurious feel. A broad palette of standard colours allows you to either underline the natural beauty of the wood or create some unique highlights. Suitable for both furniture and floors, Legno Smart-Öl gives you an individual finish while also providing long-lasting, natural protection to wooden surfaces.

- + **2-Component Oil**
- + **available in Colourless and a wide range of colours**
- + **efficient for users as only a single coat is required**
- + **high degree of chemical and mechanical resistance**

For surfaces that are subject to normal and heavy wear in furniture and interior finishing.

Product no. 7045000200
available in a wide range of colours

Container 1 l, 2.75 l

LEGNO HARTWACHSÖL

Legno Hartwachsöl is made from natural, renewable raw materials and brings together the positive characteristics of both oils and waxes. This product is particularly eco-friendly on account of its high solids content. Unlike the other Legno products, just one coat of Legno Hartwachsöl is generally adequate.

- + **especially environmentally friendly**
- + **robust and durable with very good grain accentuation**
- + **antistatic**
- + **only one coat required**
- + **complies with the UZ 06 Guidelines**
- + **declared in baubook**

Especially environmentally friendly product. Suitable for parquet floors.

LEGNO COLOR

Opting for a natural wood finish doesn't mean you can't enjoy a variety of colours. With Legno Color, ADLER brings you an oil that allows for individual creativity in a broad range of colours. The texture of the wood is not covered over, but you achieve uniform colouration of the surface.

- + easy to use
- + fast drying
- + can be tinted to achieve a wide range of colours
- + uniform colouration
- + good water resistance

With its wide range of colours, this coloured oil allows you to realise individual and creative ideas on furniture, interior fittings and parquet and wooden floors in interior spaces.

Product no. W30 50875
Container 750 ml, 2.5 l

LEGNO METALLIC-ÖL

Legno Metallic-Öl provides the ideal solution if you want to create unique metallic effects on wooden surfaces. Available in both Gold and Silber, it allows you to retain the natural feel of the wood while at the same time creating a special effect. In addition, its low viscosity makes it particularly easy to use. Specially developed to create metallic effects that enhance the wood pores, Legno Metallic-Öl is ideally suited to furniture surfaces that are subject to light to normal wear and to interior finishing. It gives wood an unusual look and combines aesthetic versatility with a high-quality finish.

- + achieves a variety of metallic effects
- + available in both Gold and Silber
- + easy to use
- + intensity of the effect can be adjusted as desired by mixing with Legno Öl 7006

For surfaces subject to light to normal wear in furniture and interior finishing: bedroom and living room furnishings

Product no. Gold 7046112793
Silber 7046112794
Container 750 ml

OILS AND WAXES

LEGNO NATURA-ÖL

Legno Natura-Öl is a food-safe oil that was specially developed for the treatment of surfaces intended for direct contact with food. It is free from solvents and additives, offering a safe and sustainable solution for the surface treatment, care and freshening up of chopping boards, fruit bowls and serving boards. Legno Natura-Öl provides natural protection and ensures an elegant look, without compromising on safety.

- + food-safe oil for treating surfaces that are intended to come into contact with food
- + suitable for direct and long-term contact with food
- + free from solvents and additives

Surfaces that are intended to come into contact with food.

Product no. 701900021012
Container 0.5 l

LEGNO WACHS

Legno Wachs forms a coating over wooden surfaces like a water- and dirt-repellent protective film. Treated wooden components are given an elegant matt finish, a uniform look and a soft, velvety feel. After allowing the wax to dry overnight, you can also try polishing the wax with a brush with leather inlays to obtain an especially tactile surface.

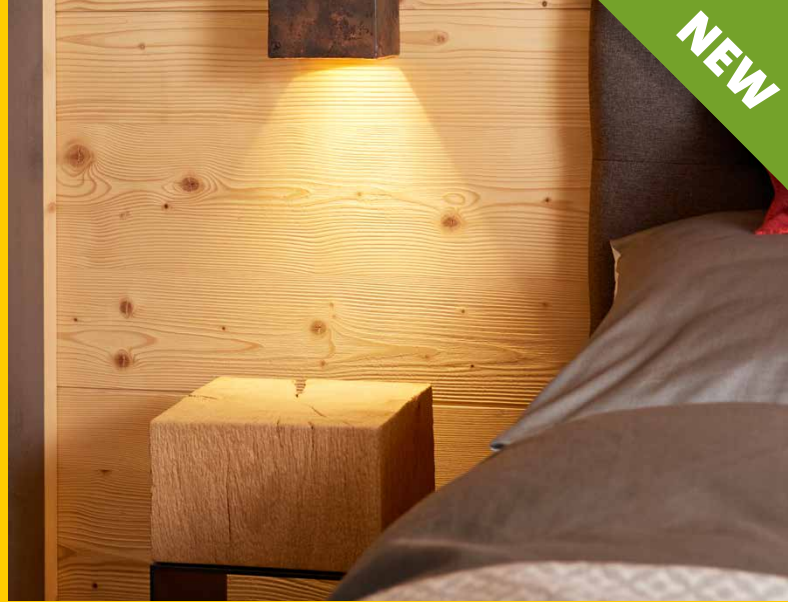

- + easy to use
- + fast drying
- + elegant matt effect
- + velvety-soft feel
- + antistatic
- + will not self-ignite

Legno Wachs is the ideal choice if you want to achieve natural, velvety-soft surfaces on furniture and interior fittings.

Container 750 ml, 5 l

NEW

LEGNO ZIRBENÖL

More and more people are coming to appreciate the positive properties of Swiss pine and the effect it has on their well-being, especially in bedrooms and rooms intended for relaxation. Our high-quality Legno Zirbenöl is for use on Swiss pine furniture to protect it against marks and as a general after-care treatment. You can be sure that the natural characteristics of Swiss pine and its aroma will be retained. Legno Zirbenöl contains, among other ingredients, 100 % pure and natural organic Swiss pine oil. It is quickly absorbed and has a water-repellent effect.

- + easy to use
- + fast drying
- + water-repellent
- + resistant to saliva and perspiration (DIN 53160/1 and DIN 53160/2)
- + pleasant feel
- + will not self-ignite

Natural organic Swiss pine oil to protect and care for Swiss pine. Preserves the natural aroma of the wood.

Product no. 7028000200
Container 750 ml, 2.5 l

LEGNO AQUA-ÖL PLUS

Legno Aqua-Öl Plus is a sustainable, water-based wood oil with a very low solvent content, less than 30 g/litre. The oil is made from natural and renewable raw materials and gives wood a matt, natural-looking surface with a pleasant feel and minimal grain accentuation. Stand-out features include good chemical and mechanical resistance, fast drying and low-odour application – ideal for furniture and wall and ceiling elements in living areas.

- + water-based, eco-friendly wood oil made from renewable raw materials
- + high percentage of natural and renewable raw materials
- + matt surface with only minimal grain accentuation
- + good cream, grease and chemical resistance
- + fast-drying
- + resistant to saliva and perspiration (DIN 53160-1 and DIN 53160-2)

The combination of natural properties and a high percentage of renewable raw materials gives this water-based wood oil an authentic character.

 - Care instructions

AFTER-CARE

CLEAN-MÖBELREINIGER & CLEAN-MÖBELPFLEGE PLUS

Clean-Möbelreiniger contains cleaning agents that will remove dust, dirt and fingerprints from painted and varnished surfaces. For extra after-care, we recommend our new Clean-Möbelpflege Plus. This new and improved furniture care product is also suitable for the after-care of matt painted or varnished surfaces.

- + cleans surfaces and gives them a fresh, new look
- + protects them from water and soiling
- + for the after-care of matt and dull matt surfaces

Using a combination of Clean-Möbelreiniger und Clean-Möbelpflege Plus freshens up furniture effectively and gives it additional protection. Both products are also available as sets. The sets also contain a cloth and a spray head for better application.

WOOD STAINS

People have been trying to enhance the natural beauty of wood through "colouration" for many centuries. In line with this tradition, ADLER has an extensive range of wood stains that provide solutions for a wide range of design choices and cater for any type of wood. ADLER is always in sync with the times and provides top-class solutions for the most diverse of situations and current trends: Do you want the wood to have an antique look? Or should it look as if it were in a cosy farmhouse? Happy to help. Or would you prefer a modern, futuristic look? No problem. Ranging from "Flex" and "Classic" through to "Style" – Austria's leading wood surface expert offers an unrivalled range of wood stains. As well as improving the appearance of the wood, ADLER's stains also even out any small imperfections or variations in the colour of the wood, making it look even more beautiful. ADLER stains thus play a key role in enhancing the visual appeal of your furniture.

For further information on ADLER's range of wood stains, take a look through the ADLER wood stains product catalogue.

WATER-BASED WOOD STAINS

Arova Classic

Hardwood stain for a transparent stain finish that doesn't emphasise the pores.

Arova Ultra

Softwood stain for an elegant and striking, grain-enhancing stain finish

Arova Flex

Hardwood stain for a stain finish that emphasises the pores for lively surfaces.

Arova Colora

Semi-transparent pigmented stain for staining hard and softwoods.

Arova Alpin

Softwood stain for an antique look and a striking, grain-enhancing stain finish on sanded or brushed softwood.

Arova Alpin Trend

Softwood stain on intensely brushed surfaces for a weathered or antique look and a very striking, grain-enhancing stain effect.

Arova Style

Hardwood stain for a calm and especially uniform stain finish

Arova Wax

Softwood wax stain with a grain-enhancing stain finish. After drying, brush with a smoothing brush.

SOLVENT-BASED WOOD STAINS

Arova Rustica

Hardwood stain for a rustic stain finish that strongly emphasises the pores.

Arova Spritzbeize

Hardwood stain for a uniform overall finish that emphasises the pores.

ADDITIVES

PIGMOFIX G

This additive increases the adhesion of paint on glass surfaces and also provides good protection against moisture ingress.

- + easy to stir in
- + achieves excellent paint adhesion on glass
- + good protection against moisture-related loss of adhesion

Product no. 90699

Container 200 g

PIGMOFIX V

This special additive was developed to ensure even and streak-free results when painting glass with a paint roller and to improve flow.

- + delays drying – long open time
- + good properties that make it easy to use
- + improves flow

Product no. 90694

Container 400 g

Paint runs through our veins.

Over 90 years ago, Johann Berghofer laid the foundations for ADLER and started to develop his own paints. Much has changed since that time, but one thing has remained the same:

Our enthusiasm for paints and varnishes, which drives us on, day after day, in our mission to develop the perfect surface coating.

Paint runs through our veins.
