## WINDOW NEWS

### AQUAWOOD SOFT-FINISH

Aquawood Soft-Finish is a water-based oil with a natural feel for use on wood and wood-aluminium windows. It creates a high-quality, authentic surface finish with a fine oil-wax-character and preserves the natural look of the wood. A very high degree of transparency ensures a clearly defined wood grain and a homogeneous, stain-free appearance. The product impresses with its excellent pore wetting and a pleasant, velvety feel with reduced roughness. Very good sagging behaviour makes it easy to use and control during application. Aquawood Soft-Finish has been developed for softwoods and is suitable for wooden structural elements that are dimensionally stable, such as windows and exterior doors where an oiled surface is expressly desired.

- + very high degree of transparency for a natural wood look
- + high-quality results with oil-wax-character
- + homogeneous, stain-free surface with low tendency to form shiny patches
- + natural, pleasant feel

**Aquawood Soft-Finish provides the ideal solution when preserving the natural beauty of softwood is your priority. With its authentic oil-finish, clear wood grain definition and pleasant feel, it is the perfect choice when an oiled surface is expressly desired.**

**Product no.** 5118000200

**Containers** 5 kg | 20 kg | 120 kg

### AQUAWOOD INTERMEDIO FLEX

This colorless, insulating intermediate coating is highly versatile and can be used with various different coating systems. Aquawood Intermedio Flex has been specially developed for use in flow coating and can be used with both opaque and transparent coating systems – making the application process straightforward and economical. In a multi-layer coating system, it provides reliable insulation and ensures a high degree of process security. It is ideal for wooden structural elements in both exterior and interior settings that are dimensionally stable, such as wood and wood-aluminium windows, and its strengths are particularly highlighted on coarse-pored hardwoods and resinous softwoods.

- + colorless, insulating intermediate coating
- + suitable for opaque and transparent coating systems
- + designed for application by means of flow coating
- + can be combined with Aquawood Covatop XT 20, Covapro 20/40, Finatop 40 and Finapro 20
- + 4-coat system on pine, oak and larch
- + 3-coat system on spruce and fir

**Aquawood Intermedio Flex offers a versatile and economical solution for flexible-use coating systems. Its reliable insulating effect, colorless finish and suitability for use with our tried-and-tested Aquawood topcoats make the product ideal for demanding industrial applications in window construction.**

**Product no.** 5725000200

**Containers** 25 kg | 120 kg

## AQUAWOOD PRIMO POSITIV

Aquawood Primo Positiv enables high-quality imitation of types of wood that are not readily available, reproducing the look of Siberian larch on native spruce or pine in an authentic manner. The result is a natural, rustic look with coloring that remains stable long-term. Specially developed for wood-aluminium windows, this coating can safely be integrated into existing Aquawood coating systems. The multi-layer spray coating system, consisting of primer, sealer, intermediate coat and topcoat, ensures an even, durable surface with a distinctive wood look.

- + larch-look on spruce or pine
- + long-lasting grain-enhancing effect to imitate high-quality types of wood
- + natural, distinctive and rustic surface
- + for wood-aluminium windows with on-trend wood character

**Aquawood Primo Positiv offers an economical and sustainable way of creating the high-quality look of larch. The authentic grain-enhancing effect and the high degree of stability of the color and surface make this the ideal coating for demanding interior applications in window and door construction.**

**Product no.** RSQ Montan 5444125219  
RSQ Alpin 5444125220

**Containers** 5 kg | 25 kg

### Coating system for Aquawood Primo Positiv\*

- 1 x **Aquawood Primo Positiv** (RSQ color)
- 1 x **Aquawood Base Positiv Fix**
- 1 x *Aquawood Intermedio Terra SQ*
- 1 x *Aquawood Finapro Terra (color)*

**ADLER-COATINGS.COM**

Paint runs through our veins.

Over 90 years ago, Johann Berghofer laid the foundation stone for ADLER and work was started to develop its own paints.

Much has changed since that time, but one thing has stayed the same: our passion for color, which drives us day after day to work on the perfect surface coating.

**Paint runs through our veins.**
